Industrial Accidents Division

Date: February 24, 2011

Re: Electronic Data Interchange (EDI)

The Division of Industrial Accidents has been diligently working towards the implementation of an Electronic Data Interchange (EDI) program for processing our divisions' claims forms. There are many new developments so we want to make you aware of our new dedicated EDI webpage. This page will provide our stakeholders information regarding EDI, its benefits, implementation timeframes, and other valuable information.

This page can be accessed through the Labor Commission's website and on the Division of Industrial Accidents homepage. The link is as follows:

<http://www.laborcommission.utah.gov/IndustrialAccidents/index.html>

Please pay special attention to the upcoming meetings and training sessions, since this will be your opportunity to learn about EDI, the process, and have your questions answered. We look forward to assisting all of our stakeholders through this process.
