Re: Electronic Physicians First Report of Injury (Form 123)

The Division of Industrial Accidents now has an electronic version of Form 123, Physician's First Report of Injury, available on our website.

Physicians can complete and submit this new Form 123 on line. Two submission methods are available--a forms application and a web service. Both methods allow physicians to complete and submit the form electronically, without having to print and mail the form. This is more efficient for physicians and the Division; it is also compatible with the Division's Electronic Data Interchange ("EDI") program.

Information to get started, along with the registration process, is found on the Division's website under the red "Easy On-Line 123 Form" icon at:
