**2009
Big 4 Phase II
Residential
and
Commercial
Construction
Safety Emphasis
Initiative**

The Utah Labor Commission, Occupational Safety and Health Division (UOSH) announces THE 2009 CONSTRUCTION INSPECTION EMPHASIS INITIATIVE named BIG 4 Phase II, which will be conducted this year at residential and commercial construction job sites statewide, from 04/15/09 to 8/30/09.

The Big 4 Phase II for residential construction is designed to help identify and eliminate hazards at residential construction job sites associated with the four major causes of fatalities, accidents and injuries in the state of Utah:

1. Falls from elevations (e.g., roofs, floors, platforms, aerial lifts and equipment).
2. Struck by (e.g., falling objects, vehicles and equipment).
3. Caught in/between (e.g., excavation/trench cave-ins, machinery, and equipment).
4. Electrical (e.g., power lines, power tools, cords, outlets, temporary wiring).

The Big 4 Phase II for commercial construction is designed to help identify and eliminate hazards associated with:

1. Falls from elevations (e.g., roofs, floors, platforms, aerial lifts and equipment).
2. Crane and rigging safety (construction cranes, mobile cranes, tower cranes)

In all inspections Compliance Safety and Health Officers (CSHO's) will visit both residential and commercial construction job sites to:

- A. Determine if serious hazards or imminent danger situations are present. In these cases, an opening conference will be conducted and the inspection process will begin, as prescribed by Section R614-1-7.G of the Utah Code.
- B. Determine if an effective safety and health program has been implemented. If an effective safety and health plan is not in place, an opening conference will be conducted and the Big 4 inspection process will begin, as prescribed by Section R614-1-7.G of the Utah Code.
- C. Determine if Citations and proposed penalties need to be issued for alleged serious violations found during the inspection, as prescribed by Utah Code R614-1-7.
- D. Determine if no serious hazards or violations are observed and a safety program is in place. In these cases, the CSHO will conduct only an on site assistance intervention.

UOSH remains committed to the safety and health of Utah's workers in the construction industry by taking positive steps to maximize the protection of employees and eliminate workplace hazards at both residential and commercial construction sites. For more information, visit <http://uosh.utah.gov/> or contact Eldon Tryon, UOSH Compliance Manager at (801) 530- 6901.
